Problem – Solution Fit – Sample

Canvas Area	Project Answer
1. Customer Segment(s)	ServiceNow administrators and authorized internal users.
2. Customer Problem	Spreadsheet records must be imported and transformed accurately.
3. Available Solutions	Manual entry or spreadsheet handling versus Import Set + Transform Map.
4. Customer Constraints	Correct source fields, mapping rules, ServiceNow permissions.
5. Available Solutions / Fit	Import Set provides ingestion; Transform Map provides controlled mapping.
6. Customer Constraints	Reference data and access permissions must be available.
7. Proposed Fit	A defined spreadsheet → import → transform → target workflow.
8. Expected Result	Consistent transformed records with verified relationships and access.
