Project Design Phase

Problem – Solution Fit Template

Date	01-10-2026	Team ID	SWTID-2026-5415
Project Name	Import Data Using Transform Maps (Spreadsheet)	Maximum Marks	2 Marks

Problem-Solution Fit: the project solution directly addresses the need to import spreadsheet data into ServiceNow accurately and make the transformed records usable and secure.

Fit Element	Project Answer
Customer Segment(s)	ServiceNow administrators and authorized internal users managing project records.
Customer Problem	Spreadsheet data must be loaded and mapped accurately into ServiceNow.
Available Solutions	Manual entry or direct spreadsheet handling; the proposed solution uses Import Sets and Transform Maps.
Customer Constraints	Source columns, mapping accuracy, ServiceNow permissions and reference-data availability.
Proposed Solution	Spreadsheet → Import Set → Transform Map → target table → Employee reference → security validation.
Expected Fit	A repeatable import and transformation workflow reduces manual handling and gives the project a defined target structure.

Import Data Using Transform Maps (Spreadsheet) – Solution Architecture
